To our valued sales team:

Please remember that when we order non-stocked items from the factory the minimum order is a layer. The level quantities are now included in the price list to make this easier.

If a customer is interested in a new glass, and they have a new user, but just uncertain on the demand, we are willing to split a layer with them. With the understanding that they purchase ½ up front and the remainder are still their responsibly and must be purchased within 6 months of the initial order.

We have in the past been able to buy out of stock and non-stocked items from some of Luigi's customers on the retail side as well as from their US based logistics provider. However, please note that the prices on this list do not apply to these orders and these must be quoted
