*New arrivals
and first looks*

radiant whites
metallic accents
modern silhouettes

An editorial note.

Every new season brings an opportunity to look at familiar forms with fresh eyes, to refine and simplify, and to let thoughtful details take the lead.

Across these pages, radiant whites introduce a sense of clarity and light, while metallic finishes add warmth, depth, and subtle contrast. Together, they create a collection that feels new and fresh—designed to elevate service through thoughtful finishes and modern silhouettes.

This book brings together newly launched designs alongside first looks at what's ahead, all styled with intention and presented to highlight what matters most: the way each piece shines, moves in use, and lives within a space.

We invite you to slow down and take it in. Notice the subtle finishes, the refined silhouettes, and the settings where simplicity becomes the statement.

A hand is shown pouring a thick stream of white creamer from a silver thermal carafe into a white ceramic mug. The creamer is being poured through a white plastic dispenser that is attached to the carafe. The background is a solid, light gray color.
