Core Technical Features

Premium Porcelain Composition: Crafted from high-quality porcelain built for maximum durability and aesthetic appeal.

Vitrification & Water Absorption: Engineered with advanced vitrification, resulting in a 0% water absorption rate on unglazed surfaces. This makes the tableware highly hygienic and resistant to odors, liquids, and bacteria.

Thermal & Mechanical Shock Resistance: Built to withstand the rigors of high-volume commercial dishwashing, as well as transitions between temperature-controlled environments (ovens and refrigerators).

Scratch & Abrasion Resistance: Protected with specially formulated transparent (SR01) or matte (SR03) glazes that protect against scratches from metal cutlery, rating up to 5.5 on the Mohs scale.

Edge Chip Warranty: Backed by Pioli's industry-leading edge-chip warranty for long-term endurance in busy dining environments.

Stackable Design: Features a space-efficient profile to maximize storage space in restaurant and hotel pantries.

Sustainability: Manufactured in Turkey using environmentally responsible practices, including the use of solar energy and a zero-waste water recycling system.

Safe and Reliable: Tested and approved to the highest quality standards, Pioli tableware utilizes underglaze painting and non-toxic materials for long-lasting color stability and food safety.

White

A timeless charm, a versatile canvas for gastronomic creations. Crafted with superior durability to withstand the rigors of culinary demands and also boasts a spacesaving stackable feature, ensuring practicality without compromising on style.

Make your culinary presentations shine in a setting of enduring elegance.
