

PORLAND  
*Re-Gen*

## Fascinating Transformation of Broken Pieces: Re-Gen

The Re-Gen series comes to life through recycling our porcelain shards. Since 2022, tons of broken pieces of kilned porcelain, misfits and non-standard choices are being recycled to become Porland Re-Gen products.

Here, Now, For Change.

## Offsetting Carbon Footprint 2021

92% of the total 311 tons of waste generated from the processes (289 tons was recycled)

Recycled 40 tons of plastic that equals to 640 barrels of oil, Which means 92384 kWh energy consumption and 656 tons of greenhouse gas emissions were prevented. Excluding the petrol needed to extract and ship the raw materials from 3rd party suppliers.

With the recycling of 89.5 tons of paper, 1,109,800 m3 of carbon dioxide containing greenhouse gas in the air was eliminated equaling to 1521 adult trees, which provide the oxygen need of 3043 people, were preserved.

Planted 10 000 trees through charities

Since 2015

Extracting raw material waste from production

Re-Gen

Fighting plastic in a premium fashion  
100 % porcelain with tactile glazing.

## How it works

For the first time in the industry, ready to serve status broken pieces recycled in to dust

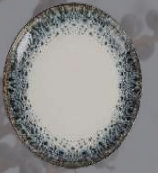

Dust gets special treatment from Porland's renowned R&D department

Resurrects as a brand new raw material

# ONTARIO

Inspired by the deep blue waters of the beautiful Canadian province of Ontario, this collection offers a magnifying effect of blue in every shade. Utilizing up to date technologies, targeting minimized carbon emissions, this special Porland Re-gen series is perfect for enhancing talented culinary presentations and manufactured with our corporate vision of sustainability.
