ACTIVE INGREDIENT:
Quaternary Ammonium
Chloride (Quat)

KILLS 99.9%
OF GERMS

CONTACT TIMES:
15 seconds to sanitize,
4 minutes to disinfect

WipesPlus® Disinfecting Wipes are 3-in-1 wipes that clean, sanitize, and disinfect surfaces. WipesPlus® Disinfecting Wipes are EPA approved, on the EPA's List N, and kill 99.9% of germs, including the Flu virus, E. coli, Salmonella, Staph, Strep, MRSA, Norovirus, and the COVID-19 virus. We recommend using WipesPlus® Disinfecting Wipes on commonly touched surfaces, such as bathroom fixtures, chairs, computer keyboard, countertops, desks, diaper changing tables, doorknobs, garbage cans, highchairs, light switches, non-critical medical devices, shopping carts and baskets, tables, telephones, and toilet seats.

SANITIZING ALCOHOL FREE WIPES

USE ON:
Hands & Surfaces

ACTIVE INGREDIENT:
Benzalkonium Chloride (BZK)

**KILLS 99.9%
OF GERMS**

CONTACT TIME:
15 seconds to sanitize

WipesPlus' Sanitizing Alcohol Free Wipes are FDA registered and provide a convenient and efficient way to kill germs. Our gentle, water-based formula kills 99.9% of germs without the need for potable water. WipesPlus' Sanitizing Alcohol Free Wipes are ideal for sanitizing hands. The absence of alcohol and the presence of Aloe Vera in our formulation ensures that our wipes will not dry out your hands, even with frequent use. WipesPlus' Sanitizing Alcohol Free Wipes also kill 99.9% of germs on surfaces and are great for wiping down high-touch surfaces like shopping cart handles and exercise equipment. We recommend using WipesPlus' Sanitizing Alcohol Free Wipes in locations such as cafeterias, convenience stores, fitness centers and gyms, grocery stores and supermarkets, cashier stations, hotels, medical offices, nursing homes, office buildings and break rooms, retail stores, schools and colleges, shopping malls, and veterinary clinics.

70% Alcohol

**KILLS 99.9%
OF GERMS**

CONTACT TIMES:
15 seconds to sanitize

WipesPlus® Hand Sanitizing Wipes protect employees and customers by helping prevent the spread of bacteria that cause illnesses. WipesPlus® Hand Sanitizing Wipes are FDA registered and meet the FDA Food Code Hand Sanitization Requirements. Our wipes are tough on germs, while being gentle on skin. We recommend using WipesPlus® Hand Sanitizing Wipes in locations where hands and bacteria are bound to meet, such as cafeterias, convenience stores, fitness centers and gyms, grocery stores and supermarkets, cashier stations, hotels, medical offices, nursing homes, office buildings and break rooms, restaurants (front of house and back of house), retail stores, schools and colleges, shopping malls, and veterinary clinics.

[No-Rinse Food Contact
Multi-Surface Wipes]

WipesPlus® No-Rinse Food Contact Multi-Surface Wipes are designed with the food service industry in mind and clean, disinfect, and deodorize in one labor-saving step. WipesPlus® No-Rinse Food Contact Multi-Surface Wipes are EPA approved, on the EPA's List N, and kill 99.9% of bacteria, including E. coli, Salmonella, Staph, MRSA, Listeria, and Shigella. They also kill key viruses, including the Flu Virus, Norovirus, and the COVID-19 virus. WipesPlus® No-Rinse Food Contact Multi-Surface Wipes will not leave any harsh

chemical residue and do not require a rinse, even on food contact surfaces. We recommend using WipesPlus® No-Rinse Food Contact Multi-Surface Wipes anywhere food is prepared or served.

Additionally, we also offer WipesPlus® Table Wipes, which are ideal for quickly wiping away dust, crumbs, and spills from dining tables. We also offer WipesPlus® Probe Wipes that clean food thermometers and meat probes in a single swipe.

MULTI-TASK DRY WIPES

USE ON:
Surfaces

ACTIVE INGREDIENT:
Use your own
chemical solution

**AS
EASY AS
1-2-3!**

- 1** Insert WipesPlus® Multi-Task dry roll of wipes into a WipesPlus® Multi-Task Bucket.
- 2** Pour 64 oz. of liquid containing your preferred chemical solution into the center of the roll.
- 3** Thread the end of the wipe from the center of the roll through the lid opening.

The WipesPlus® Multi-Task System is designed to save you time, money, and labor, while also making it easier to maintain compliance with the FDA Food Code. The WipesPlus® Multi-Task System consists of WipesPlus® Multi-Task Buckets, WipesPlus® 64 oz. Measuring Cups, and 3 different configurations of WipesPlus® Multi-Task Dry Wipes.

SPECIALTY WIPES

BABY WIPES: WipesPlus' Baby Wipes are thick, alcohol free, extra soft, and unscented to ensure they are gentle on babies' skin. They are hypoallergenic and enriched with Aloe Vera and Vitamin E. WipesPlus' Baby Wipes are ideal for placement in hospitals, schools, daycares, nurseries, supermarkets, and more.

SCREEN CLEANING WIPES: Our newest product is WipesPlus' Screen Cleaning Wipes. These innovative wipes are designed specifically to clean electronic screens. They remove fingerprints, grease, skin oil, and debris with ease, leaving screens looking clean, clear, and smudge-free. These wipes contain 70% isopropyl alcohol and won't damage devices. We recommend using WipesPlus' Screen Cleaning Wipes on glass, POS screens, LCD screens, smartphones, televisions, computers, camera lenses, touchscreen kiosks, and more.

CLEANING, SANITIZING, AND DISINFECTING: WHAT'S THE DIFFERENCE?

The words "cleaning," "sanitizing," and "disinfecting" are often used interchangeably. This creates a lot of confusion when talking about the different between cleaning wipes, sanitizing wipes, and disinfecting wipes. Knowing the meaning of each term is critical to ensuring products are being used for their intended purposes, maintaining compliance, and creating a safe and healthy environment for employees and customers.

You can think of cleaning, sanitizing, and disinfecting like a pyramid, with cleaning at the bottom and disinfecting at the top. The higher you move up the pyramid, the more effective you are against a broader spectrum of germs.

DISINFECTING

- It is the most powerful available biocidal action
- against bacteria, viruses, and fungi

SANITIZING

- The significant reduction of bacteria to a low level. Sanitizing wipes are approximately 10 times as effective as cleaning
- wipes (100 ppm alcohol) on applied and hand-held fabric, against bacteria

CLEANING

- The removal of dirt and grease from surfaces
- Cleaning wipes can be used on any
- resistant surface

Sanitizing is about reducing
disinfecting is about eliminating
